

Wireless Fire Detection

KM-BOX-02

Enclosure for K-Mesh Wireless Input Module

Features

- ▶ Wall mountable
- ▶ Viewing lid
- ▶ 4 x M25/32 cable knockouts
- ▶ 4 x M20/25 cable knockouts
- ▶ 1 x cable glands included
- ▶ Increased IP protection

Description

KM-BOX-02 is an optional installation accessory for use with the K-Mesh Wireless Input Module. Constructed from ABS the backbox provides additional protection to the input module when mounted inside. Increased protection to IP65 allows the box to be installed outdoors.

A low transparent lid ensures the status LED of the input module remains visible.

The box is provided with 4 x M25/32 cable gland knockouts top and bottom and 4 x M20/25 cable knockouts on the left and right sides. An M20 x 1.5 cable gland is provided in the kit.

The KM-BOX-02 meets the EU standard for device enclosures.
