Product Obsolescence
Syncro SI Addressable Status Indicators and Hold Unit

It is with regret we must announce the obsolescence of the Syncro SI Addressable Status Indicators and the Syncro SI Addressable Extinguishing Hold Unit.

These items used an Apollo XP95 protocol daughter board to allow them to be connected to the Addressable loop of a Syncro XT+ addressable extinguishing control panel. Apollo notified us last year that they will no longer be manufacturing the XP95 daughter board required for these products, and we secured stock to manage this obsolescence. Our price list was updated in Sept 2022 which notified customers this product was “End of Life/Subject to Availability”.

Part numbers affected

Part no.	Description
A91000M8	Syncro SI Addressable Extinguishant Status Unit
A91100M8	Syncro SI Addressable Extinguishant Status Unit c/w Manual Release
A91110M8	Syncro SI Addressable Extinguishant Status Unit c/w Manual Release & Mode Select Keyswitch
A91000W8	Syncro SI Addressable Weatherproof Extinguishant Status Unit
A91100W8	Syncro SI Addressable Weatherproof Extinguishant Status Unit c/w Manual Release
A91110W8	Syncro SI Addressable Weatherproof Extinguishant Status Unit c/w Manual Release & Mode Select Keyswitch
A90001M10	Syncro SI Addressable Extinguishant Hold Unit

This notification is an update that our available stock has been depleted far quicker than anticipated due to unprecedented demand, and we will be unable to satisfy any future orders.

When items are indicated as “End of Life/Subject to Availability” in our price list, it is important to confirm availability with your Kentec Sales contact or Customer Service representative before placing orders.

In this instance we are currently recommending that all customers switch to the following alternative solution:

Although every effort has been made to ensure the accuracy of the information contained in this document it is not warranted or represented by Kentec Electronics Ltd. to be a complete and up-to-date description.

Alternative Solution

The Alternative solution for these obsolete parts is to use the Sigma SI range of Status Indicators and Hold units. The Sigma SI status indicators and Sigma SI Hold unit are physically identical and provide the same functionality as the Syncro SI devices, the difference is that these devices connect directly to the relevant Syncro XT+ Extinguishing module rather than to the addressable loop.

Sigma SI alternative part numbers

Part no.	Description
K911000M8	Sigma SI – 6 LED Extinguishant Status Unit
K911010M8	Sigma SI – 6 LED Extinguishant Status Unit c/w Manual Release
K911100M8	Sigma SI – 6 LED Extinguishant Status Unit c/w Mode Select Keyswitch
K911110M8	Sigma SI – 6 LED Extinguishant Status Unit c/w Manual Release & Mode Select Keyswitch
K911113M8	Sigma SI – 10 LED Extinguishing Status Unit c/w Manual Release & Mode Select Keyswitch
W911000W8	Sigma SI – 6 LED Weatherproof Extinguishant Status Unit
W911100W8	Sigma SI – 6 LED Weatherproof Extinguishant Status Unit c/w Mode Select Keyswitch
W911110W8	Sigma SI – 6 LED Weatherproof Extinguishant Status Unit c/w Manual Release & Mode Select Keyswitch
W911113W8	Sigma SI – 10 LED Weatherproof Extinguishing Status Unit c/w Manual Release & Mode Select Keyswitch
